S

1. sarcoidosis
2. Kaposi's sarcoma
3. hematocrit
4. acquired
5. Schilling test
6. CBC
7. lipid
8. myasthenia gravis
9. ESR
10. PT
```
F. Matching Abbreviations

1. k  6. i
2. d  7. c
3. f  8. a
4. g  9. b
5. h  10. l

G. Spelling

1. anaphylaxis  6. hemorrhage
2. ascites  7. hyperlipemia
3. basophil  8. myeloid
4. dyscrasia  9. neutrophil
5. fibrinogen  10. tonsils

H. Completion

1. susceptible  6. serum
2. natural immunity  7. septicemia
3. hypersensitivity  8. heparin
4. acquired immunity  9. hemolysis
5. thrombocyte  10. erythropoietin

I. Identify the Combining Form

1. erythr/o  red
2. hemat/o  blood
3. lip/o  fat
4. myel/o  bone marrow, spinal cord
5. cyt/o  cell
6. splen/o  spleen
7. thromb/o  clot
8. path/o  disease
9. electr/o  electricity
10. hem/o  blood

J. Multiple Choice

1. a  6. c
2. b  7. b
3. c  8. c
4. a  9. a
5. c  10. c
L. Proofreading Skills

1. a condition in which there is a decrease in hemoglobin in the blood to levels below the normal range
   Spelled correctly? No anemia
