CHAPTER 24: COMPLICATIONS OF PREGNANCY, CHILDBIRTH, AND THE PUERPERIUM

Exercise 24.1 (numbers 1-3)

1. Delivery of twins, both stillborn Z37.4
   Outcome of delivery

2. Delivery of triplets, one stillborn Z37.61
   Outcome of delivery

3. Delivery of liveborn, female infant Z37.0
   Outcome of delivery

Exercise 24.2

1. Liveborn, full-term, breech presentation

2. Liveborn, premature, cephalic presentation

3. Stillborn, full-term, vertex presentation

4. Liveborn, full-term, cephalic presentation; episiotomy with repair X

5. Liveborn, full-term, vertex presentation; elective low forceps

6. Liveborn, full-term, vertex presentation; postpartum breast abscess

7. Liveborn, full-term, breech presentation changed to vertex presentation by version prior to delivery

Exercise 24.3 (numbers 1-3)

1. Antepartum supervision of pregnancy in patient with history of three previous stillbirths, 12 weeks gestation O09.291
   Z3A.12

2. Office visit for routine prenatal care, for primigravida patient with no complications, second trimester Z34.02
   Z3A.00
3. Office visit for care of 40-year-old patient who is in the fourth month of her third pregnancy

Exercise 24.4 (numbers 1-5)

1. Intrauterine pregnancy, spontaneous delivery, single liveborn

Exercise 24.5 (numbers 1-3)

1. Induction of labor by cervical dilation

Exercise 24.6

1. Family planning counseling

2. Encounter for insertion of intrauterine contraceptive device
Insertion of intrauterine contraceptive device 0UH97HZ

3. Encounter for removal of intrauterine contraceptive device Z30.432
Removal of intrauterine contraceptive device 0UPD7HZ

Exercise 24.7 (numbers 1-3)

1. Essential hypertension Z30.2
   Admitted for sterilization I10
   Laparoscopy with bilateral partial salpingectomy 0UB74ZZ

2. Endometriosis of uterus Z30.2
   Admitted for sterilization N80.0
   Bilateral laparoscopic tubal ligation via electrocautery for sterilization 0U574ZZ

3. Term pregnancy, with breech delivery, female infant, followed by sterilization O32.1xx0
   Z30.2
   Z37.0
   Z3A.40
   Vacuum breech extraction 10D07Z6
   Laparoscopic occlusion of bilateral fallopian tubes with Falope (external) rings 0UL74CZ

Exercise 24.8 (numbers 1-10)

1. Elderly primigravida (37 years old); 40 weeks gestation, spontaneous delivery of living female infant O09.513
   Z37.0
   Outcome of delivery Z3A.40
   Manually assisted delivery 10E0XZZ
   Episiotomy and repair 0W8NXZZ

2. Term pregnancy, 39 weeks gestation, living dichorionic twins (diamniotic sacs), cesarean delivery performed because fetal stress noted prior to labor O77.9
   O30.043
   Z37.2
   Outcome of delivery Z3A.39
   Low cervical cesarean delivery 10D00Z1

3. Delivery, 38 weeks gestation, living child, O80
ROA presentation

Fetal cardiac rhythm monitoring during labor

Episiotomy and episiorrhaphy

4. Uterine pregnancy, 39 weeks gestation, delivered with obstructed labor due to transverse lie presentation
Pre-existing hypertension with mild preeclampsia, single liveborn

4A1H7FZ

0W8NXZZ

Outcome of delivery

Manually assisted delivery

5. Intrauterine pregnancy, 37 weeks gestation, delivered, spontaneous
Third-stage hemorrhage with anemia secondary to acute blood loss
Monochorionic twins, both liveborn, diamniotic placenta

O64.8xx0

O32.2xx0

O11.3

Z3A.39

Z3A.37

Outcome of delivery

6. Pregnancy, 38 weeks gestation, delivered, frank breech presentation with liveborn male infant
Partial breech extraction with mid-forceps to aftercoming head

O32.1xx0

Z3A.38

10D07Z4

Outcome of delivery

7. Term pregnancy, 40 weeks gestation, delivered, spontaneous
Liveborn, male infant

O80

Z3A.40

10E0XZZ

Outcome of delivery

Assisted spontaneous delivery

Elective sterilization following delivery
Bilateral endoscopic ligation and crushing of fallopian tubes

Elective sterilization following delivery
O34.32
complicating incompetent cervix, undelivered Z3A.26
Shirodkar cervical cerclage operation 0UVC7ZZ

9. Gestational hypertension O13.3
   Pregnancy, third trimester, 29 weeks gestation, Z3A.29
   undelivered

10. Intrauterine pregnancy, 38 weeks gestation, delivered, Z70.1
    right occipitoanterior, liveborn male infant Z37.0
    Episiotomy that extended to second-degree lacerations, Z3A.38
    perineum

                   Outcome of delivery
    Amniotomy for induction of labor 10907ZC
    Low-forceps delivery with episiotomy 10D07Z3
    Repair of perineal laceration 0W8NXZZ
                                0WQNXZZ
