CHAPTER 25: ABORTION AND ECTOPIC PREGNANCY

Exercise 25.1 (numbers 1-3)

1. Failed attempted abortion complicated by hemorrhage
   - ICD-10: O07.1
   - Z3A.00

2. Incomplete early abortion (spontaneous)
   - ICD-10: O03.4
   - Z3A.00

3. Therapeutic abortion, complete, with electrolyte imbalance
   - ICD-10: O04.83
   - Z3A.00

Exercise 25.2

1. Therapeutic abortion, complete (10 weeks gestation), performed because of severe reactive psychosis
   - ICD-10: Z33.2
   - O99.341
   - F23
   - Z3A.10
   - Vaginal vacuum abortion
   - ICD-10: 10A07Z6

2. Inadvertent abortion (complete) prompted by radiation treatment damage to fetus, necessitating termination of pregnancy (single fetus)
   - ICD-10: Z33.2
   - O35.6xx0
   - Y84.2
   - Z3A.00

3. Elective abortion (complete) performed because of chromosomal abnormality of fetus (single fetus)
   - ICD-10: Z33.2
   - O35.1xx0
   - Z3A.00
   - Abortion using laminaria
   - ICD-10: 10A07ZW

Exercise 25.3 (numbers 1-8)

1. Therapeutic abortion, complete, with embolism
   - ICD-10: O04.7
   - Z3A.00

2. Failed attempted induction of abortion
   - ICD-10: O07.4
   - Z3A.00
3. Ruptured right tubal pregnancy with peritonitis due to group A Streptococcus

4. Incomplete early abortion at 8 weeks gestation (spontaneous)

5. Eighteen-week spontaneous abortion, complete, with excessive hemorrhage

6. Electively induced abortion with liveborn, 21 weeks

7. Electively induced abortion, complete, complicated by shock

8. Ectopic pregnancy, right fallopian tube
